CORPORATE SPACE

J WALTER THOMPSON OFFICES

Fit-out of 50,000-SF space among two floors for marketing and advertising operations. Acoustic services accommodated environments for enclosed and open plan offices, conference rooms, open collaboration area, phone rooms, prep-kitchen and support areas. State-of-the-art video display and teleconferencing systems with integrated remote-control systems were designed for two presentation conference rooms. A/V systems for conference rooms (four large, four medium and ten small) included video monitor and basic audio and video presentation and teleconference systems. Wellness and TED rooms were equipped with video monitors.
