

FINANCIAL CORPORATE SPACE

MERCHANTS GATE

Interior construction full floor fit out of 7,000-SF of office space for financial trading operations. Space consists of private offices, conference areas, a trading area and a gym. Addressed speech privacy between adjacent office spaces and corridors and attention to conference room speech privacy. Explored control of background noise levels and sound absorptive treatments to control acoustic reflections and reverberant build-up. Also provided recommendations for acoustics in reception and lobby.
