## EVENTS CENTER

# MORGANTOWN

New 30,000-SF facility provides meeting, convention, banquet, trade-show and entertainment space as part of at the Morgantown Event Center. The facility stems from a City-driven initiative to revitalize the Wharf District and create a market for conferences and conventions that previously had not existed in the region. Adjacent to the Waterfront Place Hotel, it is the second largest convention facility in the state and is designed to accommodate a variety of event types including concerts, plays, boxing matches, banquets, and conventions and features outdoor terraces, ample pre-function areas, full catering kitchen and support spaces.

AD provided design of acoustics and interfaced closely with technology consultants for natural acoustics and distributed audio for the event center, lobby, meeting rooms and changing/green rooms.
