

CONTEMPORARY EXPERIMENTAL THEATER SPACE

MARINOFF THEATER

New 109,000-SF international-caliber arts facility accommodates the University's drama and visual arts program and The Contemporary American Theater Festival. Building houses galleries, studios, faculty offices, computer classrooms with sophisticated AV systems, art history and art appreciation classrooms and a 175-seat flexible theater.

Comprehensive acoustics design services were provided for theater acoustics, noise control, sound isolation and addressing acoustics in the lobby and exhibit spaces that feature unusual room shapes and reverberant finishes. Focus directed to achieve excellent speech intelligibility in the performance spaces, classrooms, and meeting rooms, low background noise levels, and high levels of sound isolation between spaces.
