

## CASINO RESORT SHOWROOM

# ELDORADO THEATRE

New 580 seat performance venue serves as the entertainment hub for a vibrant casino resort and as an entertainment destination for the Northern Nevada region. Design centered on achieving a vibrant facility capable of showcasing Broadway-style productions shows. Featuring fully-equipped production stage with extensive performance lighting, rigging and audio/video systems, acoustic design addressed elements to serve entertainers from every genre of music and support an intimate atmosphere. AD's acoustic team provided significant review of room acoustics, noise isolation and mechanical vibration details to ensure that performances can be enjoyed from every seat in the showroom.
