

DIPLOMACY & COMMERCE

U.S. EMBASSY COMPOUND

New 1 M SF+ complex is part of the Excellence in Diplomatic Facilities Program and provides administrative and hospitality spaces to accommodate multiple operating arms of the U.S. Government including Foreign Relations.

AV system design and acoustics centered on spaces including multipurpose room, control room and central equipment space, conference rooms, executive / diplomatic offices, outdoor event areas, gallery / great hall and food service areas.

The new compound facility includes a new Chancery, General Services Office/support buildings, parking structures, Marine Security Guard Quarters, and vehicular/pedestrian screening facilities.
